It's officially February, and officially Valentine's season. And whether you're single or spoken for, **Naz Kupelian Salon and Spa** in Lexington can help you send the right signals this month.

(via NazKupelian.com)

During the month of February, get a free hair chalking with any regular service in your choice of three colors: green (single and ready to mingle), red (hold it fellas, I'm taken) or yellow (it's...complicated). The chalking is temporary, of course, so if your status changes, so can your hair.

To make an appointment, call the salon at **781-676-7791** and let them know you'd like the service.
