Hot tools for perfect curls that last

By: Carla Snuggs

Are you having trouble getting beautiful, bouncy curls that last all day? **Endless Beauty** has you covered: you can get and keep salon-style curls at home when you use the right styling tools. We tapped Naz Kupelian, Celebrity [Hair](#) Stylist and Owner of **Naz Kupelian Salon & Spa**. Naz provides 4 simple tools and tips to help you get the long-lasting curly hairstyle you want:

Thermal Locking Spray (1)

One of the first things I would recommend for getting great curls that last all day is buying a thermal or locking spray to start the process. These types of sprays are readily available in salons and even your local pharmacy. These products will protect your hair and 'lock in the curls. ([Redken Heat Styling](#), [Amazon.com](#), \$21)

Next, you need to decide on what type of curls you want and what type of [device](#) you're going to use. From spiral, to large loops, to more of a wave; different tools give different results.

Flat Iron (2)

Take a **flat iron** and swishing your hair around it. This will give a great spiral to your hair and produce fairy tale like curls. ([Babyliss PRO Nano Titanium 1" U Styler](#), [Folica.com](#), \$129.99)

Curling Iron (3)

If you use a [curling iron](#) for a more traditional look, Naz recommends using "The Wand". Several companies make this device, Conair makes several great ones, but you can find this device anywhere and it is perfect for a more traditional look. ([Conair Infiniti You Curl Wand Styler](#), [Ulta.com](#), \$24.99)

Double Barrel Curling Iron (4)

Finally, go double-barrel for that **Hollywood s-wave** look. ([Remington Wrap to Waves Styler-Curling Iron](#), [Target.com](#), \$24.99)

Above all it is about trial and error to find the perfect combination of product and device. So don't leave it to the last moment, practice makes perfect!
