

Summer Hair: Hit the Sand with Beach Waves

Celebrity Hair Stylist Naz Kupelian's Tips for Summer Beach Waves

Summertime is on the horizon, which means warm weather and relaxing at the beach at the Cape, Hamptons or Malibu. But what if there is no time to sit at the beach all day to create the perfect wave? No worries, from wavy to stick straight hair types Celebrity Hair Stylist Naz Kupelian has tips on how to create this natural summer look at home!

- For straight hair: 1. Apply Naz Kupelian Foaming Sea Silk mousse to wet hair or spray Naz Kupelian's "CBreeze" salt spray onto damp hair. 2. Flip hair over and blow dry to add volume to roots. 3. Twist large sections of hair from the bottom until there is tension; this creates smoothness before using the curling iron. 4. Separate hair into four sections and apply Naz "Switch It" Hairspray onto areas that will be curled. 5. Wrap about 3 inch sections of hair around barrel of curling iron, with barrel about three inches from roots. 6. Continue curling around head until done. 7. Apply the Naz Kupelian "Switch It" with the medium setting, and scrunch hair with fingers.
- For wavy hair: To enhance the waves in the hair use the RUSK Being Sexy Mouse from root to ends to control frizz while adding body and contains argon oil to control frizz and flyaways. Finish with RUSK Being Sexy Hair Spray.
